Year end project

Scope of the project

Groups of 4 to 6 persons

1 week to define the project, 6 to complete it

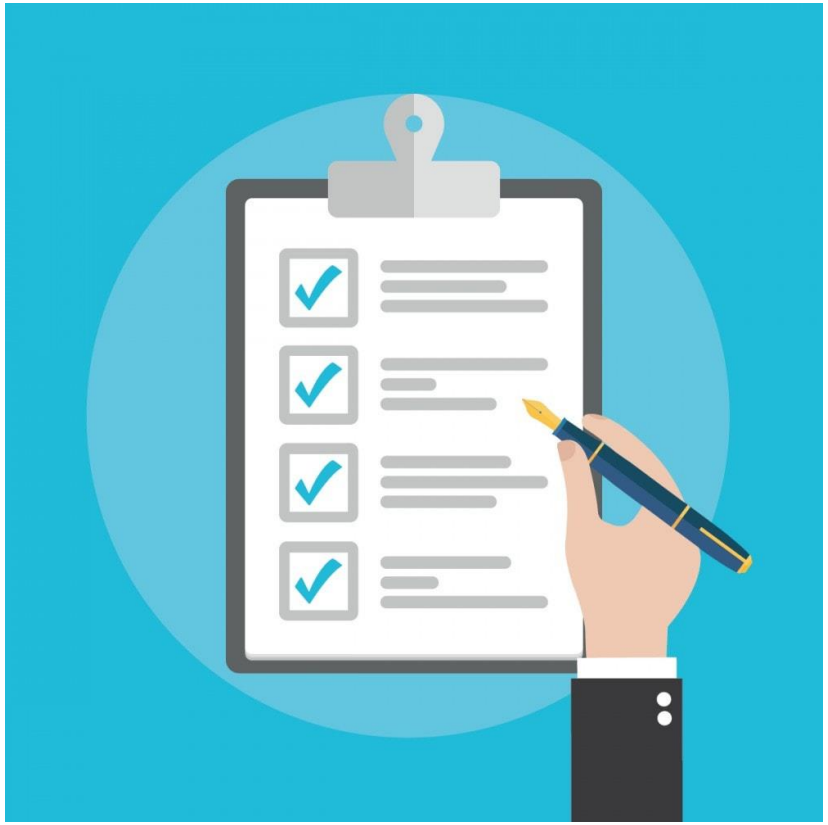
Progressive validation : 1 to 7 credits

The very first week

- Define the tools and the formation needed for your project
- Define the scope of the project and its requirements
- Synthesize everything in a document
- Send said document for approval

The document

- Must contain most of the requirements of your project
- Must include the hours spent studying
- May be subject to slighty change during the project



Project follow up and delivery

3 follow ups during the 6 weeks

Before the follow up you must update the initial document with the tasks you completed

The project keynote will be focused on the final product and the percentage of completion of the project.

{Thanks.}
